

## **AltaLIS Announces New Product**

March 2013

### **AltaLIS Announces a New Product: Fortis Facility Data**

FortisAlberta delivers safe and reliable electricity to more than half a million customers in 200 communities across Alberta. As a wire service (electricity distribution) provider, Fortis is also responsible to build, maintain and upgrade a vast network of facilities; which includes over 1 million power poles, over 117,000 kilometers of primary and secondary lines, and an array of street and yard lights.

As a participating member of the Spatial Data Warehouse P3 initiative, Fortis is making this fully attributed, GIS dataset available to industry through its distribution hub AltaLIS Ltd.
