Municipal District of Taber (Municipal View)

Alberta Data Partnerships & Municipalities (Stakeholder Feedback)

Alberta Data Partnerships
Stakeholder Meeting
November 17, 2014

Alberta Data Partnerships (ADP) – Stakeholder Feedback

Represent Authoritative Source Data in Alberta as the Provincial Licence Holder:

- **ADP Website for ADP Data Only Clear Presentation**
- **Champion and Guide the "Open Data Model" in Alberta**

Promote Data Utilization

- **Provincial Data**
- **Source Data Partnerships (eg. AMDSP)**
- **Source Data Providers (eg. Fortis - Power Lines)**

Work with Municipalities and the Alberta Gov. to reduce duplication and create awareness

- **What is available?**
- **Accuracy of Data, Update Cycles, Etc.**

Alberta Data Partnerships (ADP) – Stakeholder Feedback

Role of Researching and Promoting Standards
- **Promote Standards that are recognized in the industry**
- **Research standards when they are needed**

Role of Promoting and Developing Industry Best Practises
- **Develop best practises related to effective use of key Provincial and promoted datasets**
- **Develop best practises related to addition integration options and enhancements for data available (eg. Sharing ideas on processes that are used by municipalities to harmonize the parcel mapping with their Tax databases)**

Develop New and Innovative Data Use & Distribution Models
- **Web services & Cloud based data distribution**

Alberta Data Partnerships (ADP) – Stakeholder Feedback

Provide Data Distribution Services
- **Hardware Infrastructure**
- **Software Distribution Systems**

Encourage and Assist Data Partnerships
- **Funding Assistance**
- **Strategic Planning Assistance**

Reintroduce the Cadastral improvement program
